Carburetor Housing Cleaner

Description

Special mixture of solvents for fast and thorough removal of grease-like contaminants and deposits on carburetors and injection systems such as the housing, throttle valves, nozzles, bores.

Properties

- simple to use
- cleaning possible without dismantling
- rapid cleaning
- good cleaning action
- economical

Technical data

Color / appearance	yellow
Propellant	propane, butane
Form	liquid, aerosol
Base	mixture of solvents
Odor	characteristic

Areas of application

Used for degreasing and cleaning the inside and outside of carburetors and injection systems.

Application

Spray all components which are exposed with the air filter removed and with the engine switched off. Spray external components and allow to dry. Repeat cleaning in extreme cases. Start the engine and allow to run at a moderate speed. Do not spray painted components.

For parts which have been repainted, check paint for compatibility and color changes by testing on a hidden area.

Available pack sizes

400 ml Can aerosol	1844 AR-DE-EL-FR-NL
400 ml Can aerosol	3325 DE-EN-ES-IT-PT
400 ml Can aerosol	21999 MXES
