

Lock-Chain Combination Steel-O-Chain Ivy 9100

Art. no. 18903

Page 1 of 1

Technology

- 10 mm strong square chain, with functional, long-life and highly-flexible mesh sleeve to prevent from damage to the motorbike's paintwork
- Mesh sleeve provides high protection against abrasion and absorbs any liquids, e.g. water, oil
- The chain, the lock body as well as supporting elements of the locking mechanism are made of special hardened steel
- Ergonomic lock body cover with SCT Soft Case Technology, which offers a very high impact resistance
- Premium cylinder for high protection against manipulations, e.g. picking
- Two user-friendly reversible keys are supplied with the lock

Operation and use

- Good protection at low theft risk
- Recommended for securing entry level motorbikes and scooters
- The longer the chain, the easier the motorbike can be locked to a fixed object

Tips

- Chain lock combinations are a very good solution for locking a motorbike to a fixed object
- Very handy use because only one end of the chain must be locked
- To limit the possibilities of brutal attacks it is recommendable to avoid that the chain lays on or hangs close to the ground
- For the protected transport we recommend the bag ST1010 (matches only 110 and 140 cm length)
