

# Brake disc lock GRANIT Sledg 77

Art. no. 47503

Page 1 of 1

## Technology

- 13 mm steel bolt
- The "sliding mechanism" permits compact measurements and also flexible and easy mounting
- Soft plastic cover for better handling and to prevent paintwork damages on the rim
- The bolt, lock body as well as supporting elements of the locking mechanism are made of special hardened steel
- ABUS X Plus cylinder for highest protection against manipulations, e.g. picking
- Two keys are supplied with the lock, one LED torch key
- ABUS Code Card for additional or replacement keys
- A Memory Cable as reminder to prevent an unintended ride off with the bike still locked is included

## Operation and use

- Good protection at high theft risk
- Recommended for securing valuable motorbikes

## Transport

- SH 77 - bracket for comfortable transport and easy to mount on tubes with round (two tubes needed) diameter of 12 - 28 mm or square diameter of 12 - 18 mm
- Protective bag included for easy and secure transportation in a special compartment e.g. under the seat

## Tips

- This lock can be ordered keyed alike to other locks. This means several locks would match one key, respectively key code
- Brake disc locks are a very compact category of motorbike locks and consequently easy to transport
- To increase the security during longer parking time it is recommendable to secure the motorbike to a fixed object additionally
